Standard leg for whom wants simple workstation and it gives user more space on knee area.

Using a 50x50 hollow metal, CUBE system features legs that resemble an inverted 'U' shape. The welding is perfect (not the 'screw' type) , giving the workstation a simple and nice look

Size and thickness for Cube legs:

50w x 50d x 1.6thk (mm)

Finishing:

Epoxy powder coated, with several colour selections

More leg space+

Desking system are created to modernize your office environment and gives cosy feel to user as the knee panel are at the end of the worktop.

Simple look+

Don't underestimate based on simple design that we provide because we don't compromise with the quality of the material and finishing.

Great first impression by the solid outlook without compromise the endurance and stability of product.

Using a 75x25 hollow metal, CROSS came with square shape. The welding is perfect (not the 'screw' type) , looks decent and presentable.

Size and thickness for Cross legs:

75w x 25d x 1.6thk (mm)

Finishing:

Epoxy powder coated, with several colour selections

Personal privacy+

Make your workstation as your personal space by having desking panel. There are a variety of choices from blur to solid effect. It is more captivating if you combine two design panels at one workstation.

Work in group+

By rectangular to 120° worktop, design your own cluster workstation according to numbers of people you want and design as you like.

Present modern and stylish outlook will create an unique office environment.

Using a 38dia hollow metal, ARCH system come in a special shape. It gives you the flexiblity to create unique work spaces, from simple start-up offices to sophisticated business environment.

Size and thickness for Arch legs:

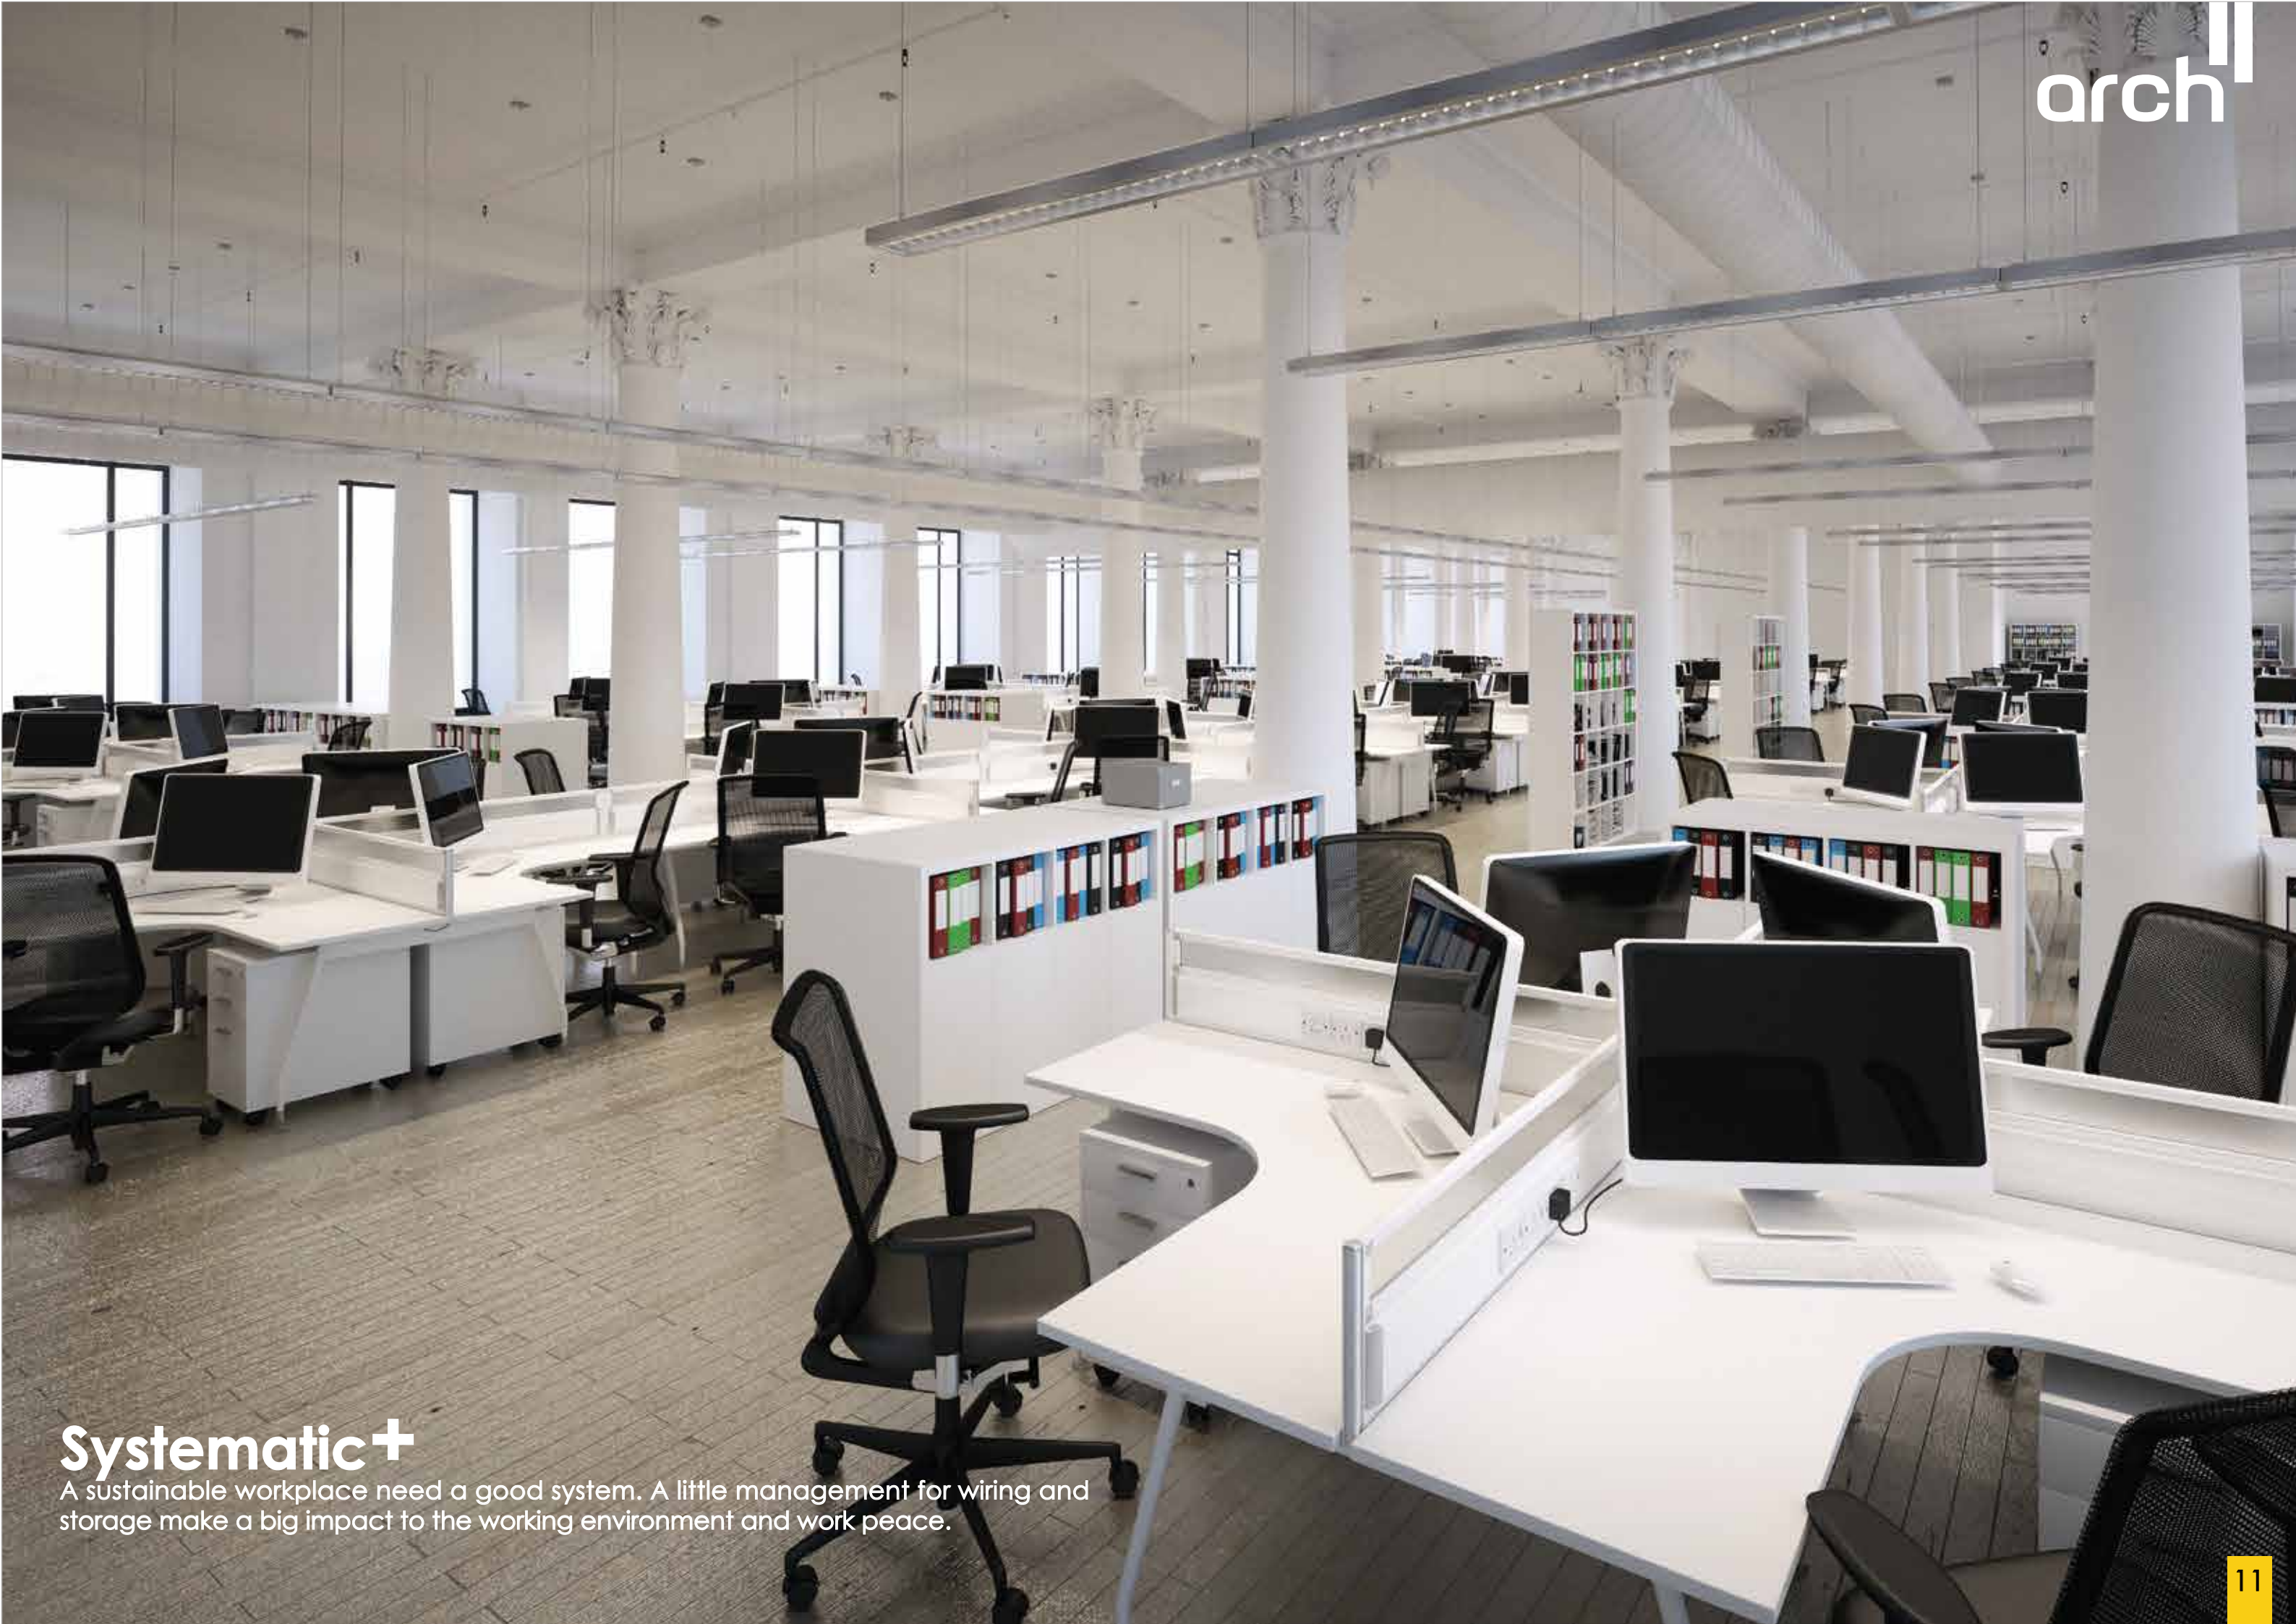

38dia x 1.6thk (mm)

Finishing:

Epoxy powder coated, with several colour selections

Mix and match+

Mix and match colour and pattern for your worktop, storage item and desking panel to enhance your work groove.

Systematic+

A sustainable workplace need a good system. A little management for wiring and storage make a big impact to the working environment and work peace.
