"Established in 2006, Vinz Office System evolved from simply a supplier of office furniture to a key player in the furniture industry that is well known for its own brand - Vinz®."

Vinz® furniture is the proud result of our research and development, and is manufactured on an OEM basis. This ensures uninterrupted supply and helps optimize our clients' budgets."

Why are we different?

It did not take us long to win the trust of big corporations. Since we were established in 2006, we have had the privilege to serve a large number of renowned companies in Malaysia, both listed and non-listed. And these are not just one-time deals. There are repeating orders.

So, why is Vinz Office System different? You ask.

The answers: wide range of products, excellent customer service, competitive prices and flexibility. Regardless of what the type or size of your office is, we provide you with just the right furniture and fittings that you need.

Our products include workstation, storage system, desk, cabinet, office seating and steel furniture. We also provide furniture for banquet, education and auditorium purposes. Our close relationship with local and foreign manufacturers strengthens our ability to supply a wide range of OEM products.

This enabled us to secure various projects throughout the years. We are able to fulfill different requirements from our clients, be it value-for-money furniture or luxury products. What makes dealing with Vinz Office System a pleasant experience is our excellent customer service. We are always on a standby mode and will be more than happy to serve you and answer any query you may have. We value every customer and are giving our best to make long-lasting business relationship. For without you we can never grow this fast and stand this strong.

Our Mission

Focus on our core business to satisfy customer's requirement:

Quality | Service | Pricing

Strengthen research & development:
Product innovation | Creative design

Globalization:

We strive to venture into overseas markets, and work together with our clients to help them standardise the design of their offices around the world.

FILING CABINET

C 106/A-LB | 4 Drawers filing cabinet
With Locking Bar
463mm (W) X 1320mm (H) X 613mm (D)

CKD
558mm (W) X 1335mm (H) x 120mm (D)
M3 - 0.0893

C106/A | 4 Drawers filing cabinet
With Recess Handle
463mm (W) X 1320mm (H) X 613mm (D)

CKD
558mm (W) X 1335mm (H) x 120mm (D)
M3 - 0.0893

C106/B | 3 Drawers filing cabinet
With Recess Handle
463mm (W) X 1016mm (H) X 613mm (D)

CKD
558mm (W) X 1031mm (H) x 120mm (D)
M3 - 0.0690

C106/C | 2 Drawers filing cabinet
With Recess Handle
463mm (W) X 711mm (H) X 613mm (D)

CKD
558mm (W) X 720mm (H) x 120mm (D)
M3 - 0.0690

CUPBOARD CABINET

FIRE RESISTANT SAFE

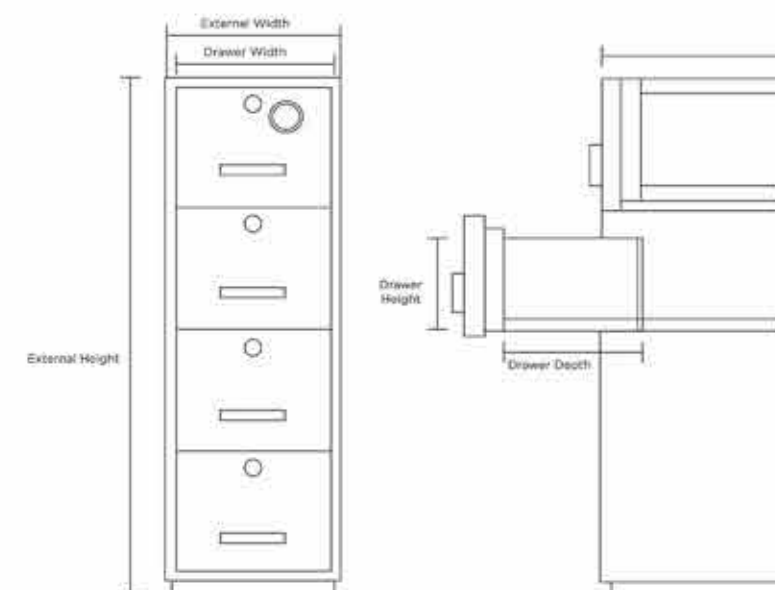

Fire Resistant Cabinet

FRC 2
825mm (H) X 525mm (W) x 755mm (D)

FRC 4
1,550mm (H) X 525mm (W) x 755mm (D)

FRC 3
1,190mm (H) X 525mm (W) x 755mm (D)

Drawer
302mm (H) X 383mm (W) x 643mm (D)

FIRE RESISTANT SAFE

Falcon FRC fire resistance cabinets satisfied the criteria in accordance to Japanese Industrial Standards JIS-1037:1981 for a one hour duration at 1000 degrees Celcius. Please be advised that temperature of 1000 degrees Celcius can only obtained in a furnace or in the oil rigs fire only. Therefore under any normal high-rise building & shop house building fire, the fire resistant cabinet can easily resist more than 3 hours.

FEATURES

1) HEAVY DUTY METAL RAILING

The drawer is loadable with 80kgs uniform distributed load. Super heavy duty castor & ball bearing mechanism reduced the noise & increase smoothness

2) USER FRIENDLY HANDLE

After years of R&D, Falcon engineers specially designed exposed handles with only 30mm diameter rod connected to locking system to minimize weak point and user friendly press buttons.

3) TONGUE & GROOVE

This advanced type of construction between body and drawer front prevents the passage of flames. Double tongue and groove designed to ensure double heat seal and vapour barrier.

4) INDIVIDUAL COMPARTMENT

Each drawer compartment is separated to provided individual insulation against fire which reduces the risk of other drawer caught in fire.

5) PLINTH AND DROP ABSORPTION

Plinth is designed to resist impact and drop test of 20ft height during the collapsed of building, in order to protect the safe body. Available in two options

- 1) Castor type with bracket
- 2) Hidden castor with hollow section

6) MULTIPURPOSE LOCKING

State of art of the central locking and individual locking mechanism which enable single user or multiple users of the fire cabinet. This can be done by activate or deactivate the latch system beside each drawer

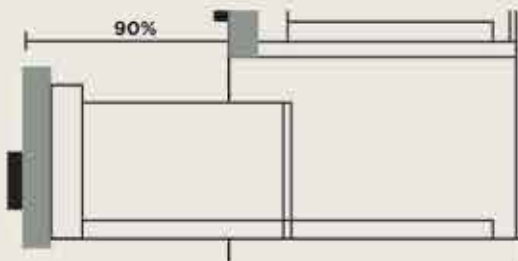

7) EXTENDED FIRE PROTECTION LIFE SPAN

Fire Swell Substance used as passive fire protection which extended the protection in any event of fire attack.

8) PULL-OUT DEPTH

Drawer can be pulled out 90% from safe body to ease the stuffing & unstuffing of documents

9) DIGITAL LOCKING

Upgradable to any UL-listed digital lock

10) FINISHING

Anti scratching Durotect PUR Plus texture paint which is high solidity & environmental friendly paint. This paint is also compliance to ROHS which harmonize with office decoration & other furniture.
