47 EXPERT

53 GREAT

Introducing the **Ingenious Collection**, a smart office solution that caters for your workspace's everyday needs.

Consisted of six versatile series, the **Ingenious Collection** is celebrated for its flexibility. Explore the possibilities of every piece of furniture, and use your creativity to set up a contemporary and functional office.

Within each series, there are furniture or components that are compatible with each other. As such, you may try combining different pieces of furniture with add-on components -just like how you would play a Lego set - to achieve an ideal and stylish workspace. The possibilities are endless!

You are pampered with abundant choices, as even a single series of the **Ingenious Collection** alone contains a wide range of products - such as conference tables, desks, pedestals and cabinets, etc. - and they come in different sizes and designs.

And as always, you do not have to spend a fortune to make your workspace look great. High demands for our products ensure back-to-back orders and so, the economies of scale allow us to offer you competitive prices for high-quality products.

So what are you waiting for? Fill your office with the following series today!

- | | |
|------------------|--|
| Sleek | - Launch in 2018 , a new design for sophisticated office system furniture |
| Bless | - modern and bold, and uses white colour to make a statement; |
| Quantum | - sturdy and gives a mature impression; |
| Transform | - features beautiful and competitively priced products that combine metal and melamine chipboard to create unconventional designs; |
| Expert | - simple and nice, and uses full Melamine chipboard for the whole series; |
| Great | - similar to the Expert series (the only difference is it uses half Melamine materials). |
