office seating series

zseries

office seating series

Fourteen years,

That's how long we have been working for our clients to help them create a working space that inspires creativity and boosts productivity. This catalogue is celebration of our decade-long expertise and deep understanding of the office furniture market. It is collection of the most admired office chairs and sofas that have made many clients happy.

Regardless of the scale of your business or the size of your budget, you will find in this catalogue a huge variety of office chairs and sofas that cater to even the most unique needs. From cost-effective models to luxurious fine pieces, or from classic design to modern contemporary styles, this catalogue has it all. Best of all, no matter what you choose rest assured that you will receive high-quality furniture in the best of care. To give you an idea of what's featured here, this catalogue compiles more than 60 models of office chairs and 25 models of office sofas. In fact, we are not exaggerating it when we say this catalogue has probably the most comprehensive list of office seating in the market.

Our clients operate in diverse industries and we are confident that you, just like them, will find the best furniture for your business from this catalogue. Given that all of our office seating products are made in Malaysia, you have the options to customise your selection. We are happy to let you pick your favourite colours to match your office decor. Your furniture may also be custom-made based on your own design.

Furthermore, it is precisely because our products are made in Malaysia that we can consistently look after your needs, even after sales. We are committed to providing you with impeccable after-sales services, including repairs, replacement of components and repeat orders.

Finally, I would like to express my sincere gratitude to all of our clients and authorised dealers, who have been unwavering support and loyalty throughout the years.

We would not be where we are today without your support.

Thank You.
